

GAP

Gift Any Person

Whitepaper for GAP Token

Introduction

In recent years, gift-giving has seen high attention in society and millions of people have spent money on gift-giving at different times and occasions. However, these gifts often have a fixed value or are associated with effort, and sending these gifts is limited to certain environments and conditions.

Most of the people know the other person to give a gift and it is rare to send a gift to an unknown person. The goal of GAP Token is to transform the world of giving by transforming the traditional ways of giving gifts into a new way.

Executive Summary

GAP Token is a revolutionary digital currency designed to improve the social experience by providing real value to different parts of the world. Its goal is to create a single currency system for various gifts that allows people to turn their gift cards into a tradable and valuable asset. With GAP Token, all people can hold, buy, sell and trade their gift cards on multiple platforms and exchanges, thereby significantly increasing the love and interaction in the global ecosystem.

Vision

To create a wider network of gift giving globally with variable value of this gift and increase this culture especially for giving gifts to all people.

Mission

- Distribution of all GAPs among people (public token) in such a way that the more people give to others, the more capital they will have.
- Creating a great community at the global level and increasing the culture of giving gifts among people
- Enhancing this culture with our advertising in public media
- Reducing the level of tension among people and increasing the empathy of the people of the world and contributing to world peace
- Reaching 100 million holders
- Creating a mirror of this token for easy exchange in multiple networks
- Listing this token in one of the largest global exchanges
- Presented on the Coin Market Cap site
- Comprehensive support for this token and its distribution

Features of GAP Token

1. Global currency for gifting

The GAP token is used all over the world to give gifts, and this currency will have different prices, and it can always be exchanged between people in the form of a gift card.

2. Real world value

By linking this currency to the real world and using it instead of gifts, the world will forever find a good alternative to previous gifts. This gift can be sent at the lowest cost and can be given to all people in the world in less than a second, regardless of the sending conditions such as post.

3. Live gift experience

The introduction of this valuable token around the world causes the value of gifts to increase over time, and this makes many people remember gifts by keeping these gifts waiting for the price to increase for years.

4. Secure and user-friendly wallet

GAP Token provides a secure wallet for people to store their tokens. This wallet has an intuitive interface that makes it easy for everyone to manage their assets, make transactions and check their balance.

5. Liquidity and access

The GAP token is listed on a digital currency exchange and provides liquidity and the ability to purchase gift cards and gift currency. It allows the people of the world to easily buy, sell and trade GAP tokens and after buying them, give them to their friends and acquaintances or to all the people of the world.

In addition, this token has agreed with one of the world's largest exchanges to be listed, and the contract has been signed between the two parties, and the account information is available to all users in the profile section.

Technical Overview

- Blockchain Technology

GAP Token will be built on a strong blockchain platform and will ensure transparency, security and immutability of transactions. The choice of blockchain will be based on factors such as scalability, transaction speed and low fees and user surveys

- Smart Contracts

Smart contracts will be used to automate and secure the distribution and exchange of GAP tokens. These contracts govern the principle of universality and financial security of GAP and facilitate secure transactions between people. The price of the GAP is determined based on transactions, and we have not considered the possibility of creating and burning in these smart contracts

- Gift integration with business

Gap Token provides APIs and SDKs for public access for commercial use.

Gap has built a huge platform for global exchanges and these Gap gift cards will be supported forever . In the future, many people will turn to giving gift cards with Gap currency instead of using physical gifts .

Use Cases

Use worldwide as personalized gifts

Use as bonus cards on all sites in the world

Use as digital currency is completely limited and without increase for investment

Use as corporate gifts
Use as disposable gift cards for purchases

Roadmap

Phase 1: Development and Testing

1. Completing the GAP Token clicker game
2. Development and deployment of smart contracts
3. Building the GAP network and wallet and testing it
4. Entering the gap network in the global blockchain

Phase 2: Launch and expansion

1. Launching the GAP token on major digital currency exchanges
2. Communication and exchange with blockchain developers in the world
3. Increasing the use of GAP token to other social network spaces

Phase 3: Mass Adoption

1. Introducing the GAP token to the wider community
2. Improve the wallet and integration tools continuously
3. Creating additional uses and applications for GAP Token

Conclusion

GAP Token aims to revolutionize the world by providing real value to different parts of the world and enhancing the beautiful gifting experience. By creating a unified, tradable currency for the world, GAP Token adds a new dimension to the way people interact with their favorite friends and offers tangible rewards for their virtual achievements. Join us on this exciting journey to transform the future of the world . We intend to achieve a very high market cap volume

More information

1) What is a gap?

"Gap is actually a token in digital currency networks. Gap is a secure code on the blockchain platform, which is priced based on the amount of buying and selling, and its function is in the form of a bank gift card. Its philosophy is to give a gift card as a gift, and in this way, you can create a permanent gift structure in the society. provided and these cards, in addition to the possibility of buying and selling, can be used for all people who want to give virtual gift cards. These cards never run out and are always moved around the world. Enjoy the gift to all people."

2) In what networks is the GAP made?

Various cryptocurrency networks can accept GAP, including the open network. Phantom . Ethereum, Binance and ... different networks in which GAP is observed have provided the possibility of inter-network transfer from your phone by using write. The main network of GAP at the beginning of its work is the Telegram blockchain system (Open Network).

3) Where is White Paper of Gap?

You can see more detailed information in the link below :

<https://www.gap.gift/gap-whitepaper.pdf>

4) When will the GAP be listed?

GAP will be listed as soon as it exceeds 100 million users and we have already signed an agreement with one of the exchanges to list. We do not announce the name of this exchange at this time. However, the username and password announced for users in the profile menu are taken from that exchange

That username can be used by all users after being listed

5) What tips does Gap use in terms of security?

GAP is built from the most trusted global blockchain tools and it will be all distributed so the worry about it being a scam is gone. Telegram and Ethereum systems are one of the best software in the world in terms of security, and it checks its transactions carefully. We proudly use these software masterpieces

6) Does the GAP end after being listed?

No, Gap continues to work until the last grant of its own unit, and after that Gap cards can be gifted on another platform forever.

7) Is there a daily growth limit in App Gap?

The number of coins during the day can grow up to 50 million coins

8) Is GAP a game?

GAP is actually not a game, it's a global humanitarian activity to love each other and it makes everyone in the world give each other gifts. Although the price of these gifts may not be high at first, it is worth giving to everyone, and in the future, these pink gift cards may be worth a lot.

9) Does the GAP belong to a particular country or group?

GAP does not belong to any country or group and is for all people of the world. Our development includes smart people from 4 countries.

10) Is it possible to delete the servers and disconnect it?

Our servers are located in several locations around the world, but sometimes the speed may slow down due to the large number of users. Or even the servers may be down temporarily. No need to worry and we will solve the problems soon. This is a safe social system and it never fails. But some countries may prevent our activity due to their policies and we will immediately move our server from that provider. So wait if the sites are down

11) Special thanks

Special thanks to the Telegram and Ethereum team and especially to the very respectable man Mr. Pavel Durov

12) How to convert the number of coins to the number of dollars?

Every 1000000 coins is actually a GAP . This is a fixed rule. Our estimate of global acceptance and financial support is that the number of GAP users will exceed 100 million people, and considering the amount of heavy support after the listing, our prediction is that the price of each GAP is equal to one hundred of dollars .

But the pricing is adjusted based on the acceptance of the people and purchase and sale orders and popular support of the holders. It all comes down to buyers and holders

The more tokens that are held, the higher the price, and the more you participate in the pre-sale, the lower the price.

13) How are the cards calculated?

The price of each card is specified in the cost section and the amount of profit for both parties is written on the card. Each gift is equally profitable for the sender

14) How do GAP plans work?

Gap plans are actually seconds miners

The initial plan is a pickaxe plan that increases on click and this step does not add anything per second, it is enabled for you by default.

The second plan is the plan of silver ore, which will give you 1 coin per second by buying that mine, the price of this mine is equal to 1 million coins.

The third plan is the gold mine, which gives you 10 coins every second by buying that mine. The price of this mine is 10 million

The fourth plan is the diamond mine, which gives you 100 coins every second by buying that mine. The price of this mine is 100 million.

15) Important points of use

After each click, press the + (Add) button to add coins to the wallet

And the number of miner coins of the plans is updated every time

Game levels determine the number of coins created with each click. The levels increase automatically.

16) What is friends number ?

The number of your friends is the number of people who have used your gift cards and this number is used to rank receiving GAP in the wallet. Also, with a higher number of uses, you can activate and buy more expensive cards. The more friends you have, the faster your wealth will grow and the sooner you will earn.

17) Is there a secret password in the app?

A 100 million code is hidden in one of the parts of the game, which can be obtained by a certain number of clicks. This gift is for smart people.

18) How many points does membership have?

You can receive 10,000 coins per day by checking the introduced Telegram channels daily. We do not approve or reject the contents of these channels and only introduce them for your review.

19) Who are called friends in the GAP system?

The number of your friends is the number of people who have used your giftcards, and this number will be used in the future to rank the GAP received in the wallet. The more friends you have, the faster your wealth will grow and the sooner you will earn. Just like the real world

20) Is there a secret code in the GAP system?

A 10 million COIN is hidden in one of the parts of the PAGE , which can be obtained by 100 number of clicks. This gift is for smart people.

21) When will the password be revealed?

After reaching the number of 100 million users, all exchange accounts will be filled with the number of your coins and the password information will be provided to you.

22) Notice

Be careful not to send gift cards to non-mutual friends, you may be blocked by Telegram.

You can use large channels and groups to distribute your gift cards.

23) How much COINS does sending a GIFTcard increase for us?

You will increase your coins as much as the recipient of the gift card will get bonus coins.

24) Will the gift cards be lost after the airdrop is finished?

The slot token circulation will always remain due to having a gift card and being in high demand.

However, the use of the Gap token is not limited to gifting and you can transfer it as an asset

25) What percentage of gap is airdropped?

The total quantity of GAP will be distributed among people and this institution will not keep any token for itself and for generating income . after that , GAP just can circulate among people.

26) number of GAP ?

The number of gaps during distribution and construction may increase due to wide acceptance, but it will not have mint functionality at all.

The number of gaps is currently estimated at 1 trillion, and this can become the largest airdrop in the world by increasing to 100 trillion numbers.

27) Being international

We support Pavel durov and freedom of speech in the world, and governments should not be able to control distributed systems. We respect all governments and follow international laws.

But no global app should be under the control of one of the countries or under its pressure. In any case, our airdrop has a web version that works with email and other social networks

28) How is the order of gap distribution?

Whoever reaches the number of one billion coins first will be the first recipient in the distribution list of Gap tokens.

29) Festival of Diamonds

Anyone who reaches Durov's diamond card will receive physical diamonds and dubai tickets with best hotels from us by giving us postal information.

30) GAP INDEX Channel

All the channels that have created an advertisement for Token Gap can send us their channel name in the add channel section, so that while we will put those channels in the big channel list of Telegram, we will also provide users with the possibility to subscribe to that channels.

31) supporting app

After completing this airdrop, you will face a large app to distribute gift cards forever WORLDWIDE

32) do manufacturers manipulate the price?

because this token is public and all of them distributed for holders, its pricing method is different and depends on the users, holders and investors.

owner don't interfere in the pricing however our partner exchange is preparing a dedicated page for pre market and you can set your orders to your favorable price .

33) TERMS & POLICY

Your use of this app constitutes acceptance of our terms. If for any reason you do not consider this app legal or suitable for you, do not use it

. . . Comming soon

34) Balance estimating

estimated balance = total GAP * GAP estimated price

35) GAP estimated price

GAP estimated price = total buy / total sell * 100\$

36) what is hold button ?

These buttons measure your behavior and desire in the primary market of sale or hold token gap You can receive all your GAPS in token mode after being listed by using the buy and hold button. This will cause the price of the gap to increase and not experience a sharp drop We recommend that you definitely use this button And hold all your tokens And gradually sell or give away If most users use this option, the market cap of Bitcoin will be touched with GAP

37) what is cash button ?

These buttons measure your behavior and desire in the primary market of sale or hold token gap . You can put all your GAPS in the sales queue after being listed by using the sell and cash button. This will cause the price of the gap to decrease and may experience a sharp drop
